

Recommendation Letter

To whom it may concern,

I'm thrilled to recommend **Mohammed "Moe" Abbas**, a graduate of the **Become a Game Writer** course taught by me and delivered through ELVTR.

Moe demonstrated both a deep understanding and a passionate engagement with all course materials. He not only grasped the theory but also contributed significantly to our dynamic learning environment. He crafted compelling interactive narratives and characters with unique, engaging voices that truly animate the text. In addition, Moe excelled in writing for game cutscenes and genre-specific storytelling. His writing enhances player immersion by smoothly transitioning through the scenes and connecting players to the game's world.

In our course, teamwork is crucial. Moe excelled in this aspect, engaging peers in meaningful dialogues and collaborating during workshops. He successfully completed all stages of the course project and developed a captivating storyboard for a video game.

Each contribution showcased not just creative talent but also a clear understanding of budgetary constraints, making his narratives as economically savvy as they are engaging.

Working with Moe was a joy. His commitment, enthusiasm, and positive energy have made a lasting impression. I'm confident that the skills and knowledge acquired during our time together have provided him with a solid foundation for a successful career in game writing.
